**DETAILED ACTION**

***Allowable Subject Matter***

1. Claims 7,11,22,30,35-50 are allowed.
2. The following is an examiner's statement of reasons for allowance: the allowability resides in the overall structure of the device as recited by independent claims 7 & 11,22,30,35,39,42,43 & 47, and at least in part, because claim 7 recites: "multifunctional device comprising a still image camera, video camera, video recorder, a digital camcorder, a television and a radio," claim 11 recites: "the multi-functional device has a side that is accessible externally of the computer in accordance with at least part of the first set of functions, interface elements exposed on the externally accessible side for controlling functions of the multi-functional device when inserted into the internal device bay and when the multi-functional device is removed from the internal device bay and the interface elements comprise at least one of a volume control dial, a headphone jack and a tuner knob," claim 22 recites: "at least one of still image capturing device, a video image capturing device, a television and a radio," claim 30 recites: "wherein the multi-functional device comprises at least one device for capturing digital still images, digital video, a television and a radio," claim 35 recites: "the camera has second set of functions when removed from the internal device bay, the second set of functions includes capturing image content through the camera lens," claim 39 & 42 recites: "the video device has a second set of functions when removed from the internal device bay, the second set of functions includes playing video content through the display screen of the video device," and claim and claim 43 recites: "the camera operates in a second functional capacity when removed from the personal electronic system, the second set of functions includes capturing image content through the camera lens," and claim 47 recites: "the second set of functions includes playing the video content through the display of the video device." The aforementioned limitations in combination with all remaining limitations of claims

7,11,22,30,35,39,42,42 & 47 are believed to render the claims 7,11,22,30,35,39,42,42 & 47 and all claims dependent thereupon, patentable over the art of record.

**US 5689654 to Kikinis et al.** is considered a close reference to the instant application. Kikinis et al. disclosed a multi-functional device (10) (e.g. a PDA) and a device bay (105), but is silent as to a volume control dial, a headphone jack and a tuner knob exposed externally to a device bay and the device (10) comprising a still image camera, video camera, video recorder, digital camcorder, a television and a radio and

**US 7054965 B2 to Bell et al.** is considered a close reference to the instant application. Bell et al. disclosed a multi-functional device a video device (402a,402d), an internal bay (show on fig. 8B, (834) and discussed input modules including a camera (col. 9, lines 6-9 of Bell et al.) and a tape player (col. 6, lines 5-19 of Bell et al.), but is silent as to a volume control dial, a headphone jack and a tuner knob externally exposed on the multifunctional device and the multi-functional device comprising a still image capturing device, a video image capturing device, a television and a radio, and the ability of the multi-functional device (402a,402d) to operate as camera, when removed from the internal bay.

**US 6914594 B2 to Chuang** is considered a close reference to the instant application. Chuang disclosed a multi-functional device (42,52) including an image input module (52) (e.g. functions as camera) and RF module (42), but is silent as to a volume control dial, a headphone jack and a tuner knob exposed externally to a device bay the multi-functional device comprising a still image camera, video camera, video recorder, digital camcorder and a television, and the ability of the multi-functional device (42,52) to operate as camera, when removed from an internal bay.

None of the cited references, either alone or in combination, is believed to render the present invention unpatentable as claimed.
